Guilty Plea In Bomb Threat

Robert Edward Parkerson, 21, who telephoned a bomb threat to Novato Theater last Sept. 3, pleaded guilty yeserday before Judge N. Charles Brusatori of Marin Superior Court.

The judge set Feb. 11 as the time to hear a probation officer's report and for sentencing. Parkerson, who lived in San

Francisco at the time, said he is now working in Salinas. He appeared with attorney Howard K. Morehouse.

The Novato Theater had two threats on the night of Sept. 3. The first call, at 10:15 p.m., emptied the theater of all customers while police searched the premise. The second, made after midnight, was traced to the home of a 16-year-old Novato girl, who implicated Park-

You'll make the wisest choice no matter which Chevrolet you choose!

These four different cars are alike in one important way. Each is a product of Chevrolet Division of General Motors. That means any one will give you more for your money in performance, beauty and comfort... plus more good news come trade-in time. However, each of these fine cars has its own way of being distinctive too, because each is tailored to the interest of a certain kind of buyer. Our big Chevrolet,

for example, with its Jet-smooth ride, luxury and styling you'd expect in cars carrying a much higher price tag. Chevy II with its parkable size, sparkling performance and outstanding fuel economy. Corvair with rear engine maneuverability and the instincts of a sports car. And the dramatic new Corvette Sting Ray, America's most exciting car becomes America's most advanced car, now available as a two-seater coupe or convertible. In all, the Chevrolet line presents 33 handsome new models to choose from . . . a variety designed to suit the needs of just about everyone.

> So it comes down to a question of which one suits you best. Whichever your choice, you can be sure it's a wise one . . . and one you'll be happy with every day that you drive it.

14 Reasons Why RAMBLER '63 Wins **Motor Trend Magazine's Award as** "CAR OF THE YEAR"

Rambler won this great distinction "for outstanding design achievement and engineering excellence." Read these comments by Motor Trend experts:

1. Room for six 6-footers—"The interiors of both the Classic and Ambassador are roomy and comfortable . . . plenty of legroom."

2. "Lean, clean lines"-The Classic and Ambassador "have a cleaner, more functional design."

3. "Overall average of 23.1 mpg"-"There won't be many cars of this size delivering more fuel economy than the basic-engined Classic."

4. "The Ambassador V-8—a sportier, more performance-oriented vehicle" (car tested had optional 270 HP V-8. 250 HP standard).

5. "One-up on everyother car" -"In the midst of a joyful rediscovery of floor-mounted stick shift" by car buyers..."Ramblers equipped

with overdrive and floor shifting have two levers to operate: the shift lever, and a shorter stick that controls the selection of overdrive."

6. Takes punishment longer, holds resale value—Rambler's revolutionary Advanced Unit Construction "results in a unit so strong, it'll take punishment longer and, naturally, hold its resale value."

7. New traveling comfort— American, Classic and Ambassador models offer Rambler's exclusive "reclining bucket seats with headrests... options well worth the extra expenditure."

8. "Rough roads can be stormed with confidence"-"There isn't any pitch or choppiness noticeable." The American has "plenty of road clearance."

9. "Two braking systems"— "All Ramblers have, in effect, two separate braking systems. If either should fail, the remaining one can bring the car to a safe stop." Selfadjusting brakes standard.

10. Dedication to Excellence— "Quality has always been one of American Motors' largest selling points, and continues to be in the new models."

11. "Simple matter to load or unload big things"-The sedans' trunks are "large with a good amount of usable space (and) low loading lip." 12. "We've never seen a heater

that produced more heat . . . at its maximum, it should be up to any climate." 13. New-car warranty doubled

-"In addition to the long-recognized owner-appreciation features inherent in all Ramblers, the factory has doubled the new-car warranty to 24 months or 24,000 miles. "

14. "Rambler's an even better buy for 1963"—examples: The American 220 for \$1846*, Classic Six 550 for \$2055*, Ambassador V-8 880 for \$2465* (2-door sedans). See Rambler '63-the "Car of the Year"—at your Rambler dealer!

Manufacturer's suggested retail price for 1963 Rambler model indicated. Optional equipment, transportation, state and local taxes, if any, extra.

Non-Partisan Group Should Reapportion Districts Fairly

There has been so much talk about the reapportionment of State Senate districts that an existing type of unfair representation has been almost overlooked.

Roscoe Drummond called it to our attention on this page a few days ago. It showed how reapportionment itself can be unfair when it is misused.

Drummond pointed out that because of unfair political apportionment, a minority faction can be made to accept much less representation in the House of Representatives than the vote of its party member seems to indicate it should have. Drummond said:

"In California, for example, 48 per cent of the vote cast for House candidates was Republican, but only 34 per cent of the House seats were won by Republicans. In Connecticut, the percentages were 46 and 17; in Texas, 44 per cent GOP votes, 9 per cent of the House seats. A dozen other states have similar disparities."

This certainly seems an unfair way to represent the public. Yet we can understand that we can't split up our representation exactly or we'd wind up with one fellow two fifths Republican and three fifths Democrat, or something like that.

What should be done, and it certainly wasn't done in California in 1961, is to require fair reapportionment, not gerrymandering for political purposes. If the districts themselves are laid out as equally and equitably as possible, then the distortions caused by close elections will tend to balance out.

Perhaps what is really needed is the setting up of newly reapportioned district by a non-partisan body. It's now done by the State Assembly. They can't help but be partisan.

Perhaps if the State Supreme Court could be charged with the task every 10 years, we could do away with this unfair situation which gives one party the advantages over another just because they are in power at a particular time. In that way perhaps the House would be a true bulwark of democracy, the way our founding fathers intended it.

HONESTY IN A TAXICAB

When a Brooklyn cab driver discovered a purse containing \$4,000 in the back of his taxi, he turned it in at once to the police. They discovered that the money belonged

to a widow who was ready to return to France after a visit to this country. The grateful woman gave the cabbie a

\$200 reward. Then he topped things off by driving her without charge to the ship. "The honest man, tho e'er so poor," said

the poet Robert Burns, "is a king o' men for

Honesty is an admirable virtue in the abstract. But when a person who could easily be dishonest resists every temptation to take what does not belong to him, then it is a divine principle in action.

It is within the power of every one of us to help restore integrity to the marketplace. By being scrupulously honest in thought, word and deed, we glorify God, are true to ourselves and benefit all men.

MARIN LOOKS AT POLITICS

Marin-Sonoma Assembly District Is Republican For First Time

By CHAPIN A. DAY

Registration figures for today's special election made some major changes in parts of the First Congressional District. For example the Seventh Assembly District-Marin and Sonoma Counties-has a Republican registration for possibly the first time in the history of the district.

Registration figures showed Marin County with 33,449 Republicans and 28,568 Democrats, and Sonoma County with 28,517 Republicans and

33,007 Democrats. Add these figures together for the Assembly district and you'll find 61,966 Republicans and 61,575 Democrats, a difference of 391 voters fav-

orable to the GOP. This is quite a change and one, we might add, which won't last long. At the Nov.

THE CYNIC'S CORNER

'CHIP' DAY 6 election there were 72,033 Republicans in the district and 74,906 Democrats, a 2,-873 bulge in favor of the

Democrats.

THIS MAJOR reduction in the total number eligible is caused by what is known as "purging the rolls." After each general election county clerks go through the rolls to eliminate those who have not voted or who are known to have died, moved away, etc.

The total number of voters eligible in the Assembly district was 151,746 in November and only 126,842 in January, a loss of nearly 25,000. But more Democrats were dropped than Republicans.

There was not time between the announcing of the special election by the governor and the election for either party to conduct an effective registration drive, so the total was much lower than

THE REASON I say that the Republican lead in the district will be short-lived is that as soon as a registration drive is conducted in Sonoma, most of the nearly 7,000 Democrats who dropped off the rolls will be replaced and the district again will have a Democratic majority.

But Assemblyman William T. Bagley for a change might enjoy being a majority party representative at home, as does Marin's Sen. John F. Mc-Carthy. Both of them are minority representatives in the Capitol.

The laughable part was that the project had been announced in full detail on Oct. 2 in a release from the same office, but having Rep. Clem Miller, who was then still alive, announce it.

Postal authorities here said there had been no change whatsoever in the situation between the two announce-

WASHINGTON (UPI) - California Democrats - who now head fewer House committees than New York, Texas, North Carolina or Arkansas Democrats-today began the long wait that seems certain to bring them vast congressional power.

California voters last November sent 24 Democrats to the House-more than any state. It is the first time in 82 years that Texas or New York has not boasted the largest Democratic delegation.

UNDER CONGRESS' unwritten, but sacred seniority rule, committee chairmanship goes to the member of the majority party who has served longest as a committee member. In this Congress three of the 17 committees which legislate on national affairs are headed by New York Democrats, two by Texas Democrats, two by North Carolina Democrats and two by Arkansas Democrats.

California holds one House committee chairmanship. It is the space committee headed by Rep. George P. Miller of Alameda.

HOWEVER, IF the California Democrats can persuade the voters to keep sending them back every election, the simple passage of time will move them up the seniority ladders of the other 16 com-

Completing their legislative committee assignments, Democrats placed Northern liberals in all five vacant Democratic seats on the 50man House Appropriations Committee. In the last Con gress, two of the seats had been held by conservative Southern Democrats.

Democrats settled a threeway contest for two vacant Democratic seats on the 25man House Ways and Means Committee by assigning them to proven administration supporters. Both seats had been held in the last Congress by conservatives.

ON MONEY ISSUES, the House Ways and Means and Appropriations Committees are the most powerful in Congress, rivaled only by the House Rules Committee which has the power to block legislation from most other com-

Europe Fears German Or Italian Strong Man Will Replace DeGaulle

good reason, it seems to me, to believe that Gaullist Europe will be restless and perhaps turbulent.

Recently, when I was in Europe, I realized how deep and wide is the fear of a German and an Italian General De Gaulle—that is to say the Gaullist authoritarianism without General De Gaulle himself.

The general is an exquisitely civilized Frenchman, and in his hands, the liberties and humanities of western civilization are quite safe. But who would be the German General De Gaulle? Who the Italian?

In Germany and Italy, men ask that question. They have not forgotten the Prussians and the Nazis and the Fascists, and the prospect of being locked up inside a Gaullist Europe is frightening to them.

THE GREAT MAJORITY of people in the center, the Christian Democrats and the Social Democrats, look with dismay and foreboding on this prospect. That is why, outside of France, there is so strong a demand for the presence of parliamentary Britain in the Common Market and for a continuing association with the United States.

Against this background, I find myself wondering about pursue an independent, inthe timing of General De Gaulle's press conference. On the one hand, Dr. Adenauer has only a few more months in office. Unless all the evidence now available is false, his successor will be wholly against the exclusion of Brit-

ON THE OTHER hand, the British government is having all the troubles which accumulate at the end of a long term of office, and unless its nerves remain very steady, it could be provoked and goaded into breaking off the Brussels negotiations. Yet if Britain were to withdraw its application before Dr. Adenauer quits office, General De Gaulle's chances of having his way in Europe would be greatly enhanced.

This is a strong reason for only get it by giving it."

WASHINGTON - There is refusing to break off the negotiations while the true constellation of forces within Europe is still masked by Dr. Adenauer's personal relationship with General De Gaulle.

> As compared with what the general said about Britain and Europe, the passages about Polaris and the Nassau agreement are of minor importance. It has never been conceivable that General De Gaulle would not reject the Nassau proposal. But this is not so exciting as so important as it sounds, for the day is a long way off when France will have nuclear forces that she could or would use independently.

THE REAL SITUATION is not that France does not trust the United States to deter Soviet aggression. It is that General De Gaulle has long been entirely sure that the Soviet Union cannot and will not engage in military aggression in Europe.

What Khrushchev has just been saying in East Berlin has been the major premise of General De Gaulle's European policy.

In the maintenance of peace, he takes the United States for granted. He knows that we are so irrevocably committed that he can safely deed an isolationist, French policy regardless of what we think of it.

East continued with the queen of hearts, on which West played the deuce.

East then led the 10 of hearts, and this justified South's childish play. Now the contract was cold.

DRAWS TRUMPS

South ruffed the third heart, drew two rounds of trumps, and led the 10 of diamonds for a finesse. East won with the king of diamonds and shifted to a club, but it was too late.

South stepped up with the ace of clubs and got rid of the queen of clubs on one of dummy's good diamonds.

East should read the heart situation when West plays the deuce at the second trick.

Normal Individual Is Not Harmed By Adding Extra Salt To Food

Salt, which is essential to life; is found in almost every food except rice and fruit. The normal individual is not harmed by an added pinch in cooking and may relish an additional sprinkling on his food at mealtime. But some people, such as victims of hypertension or dropsy, are better off without salt. Research along this line also suggests that those with a famly history of hypertension ought to restrict their intake.

Since some of the rodents were not affected by salt, Dr. Dahl decided it might be a ant rats for breeding purposes and compared their offspring with an equal number that had high readings when fed salt. In time, through selective breeding, he was able to develop a fected by salt.

THESE EXPERIMENTS are meaningful for humans. In all probability, many of us have an inborn resistance to salt and are destined to escape hypertension. There are tests that can be done early in life to determine the potential candidate for hypertension. Those who fall into this category or who have a family history of hypertension should go easy on salt.

ment purse strings, the Con- being affected right now. gress in 1921 ordered that a formal administrative budget be presented each January. But government has got its fingers into many things since then. And today the Treasury spends a lot more money and collects a lot more than is reported in this formal budget, even though it is a record one.

The actual receipts and expenditures are called the cash budget. They show better what really affects the economy. And today the emphasis is all on what is going to make the economy grow, or hold it back.

So the Congress will be passing upon the items in the administrative budgettotalling 86.9 billion dollars income, 98.8 billion dollars spending and 11.9 billion dollars deficit. But the economists will debate the merits and effects of the cash budget - 112.2-billion-dollar receipts, 122.5 billion dollars payments, and 10.3-billiondollar deficit.

Here is how the two sets of pooks differ:

The administrative budget proposes spending for: National defense, foreign aid, space research, natural resources, agriculture, commerce and transportation, housing and services, government admin-

All of these affect the economy to the extent they take money out of it and put money back into it. Right now payments are stressed as one way of getting a sluggish economy moving faster. Later, receipts may have the favored role if a boom needed braking.

There are still other kinds of budget keeping for divining what is happening to the economy. One is called the National Income Accounts. This emindividuals put aside for tax payments rather than what they actually have paid on past incomes. These reserves aren't being spent or committed for future spending, other than for taxes. The National Income Accounts also doesn't count loans as government spending, because they'll be paid back and thus they differ from

WONDERING what makes the daily newspaper the top advertising buy? It's the number and quality of the people the daily newspaper reaches, and their friendly reaction to newspaper advertising. When an advertiser invests in any medium, he's buying an audience for his sales message. The newspaper audience is large. Almost 100,000,000 people read a daily newspaper every day in the U.S.* And that audience remains very constant. There's no "summer slump" in newspapers, no peak listening or viewing hours, no special moment when you must nail down an audience or miss out completely. The daily newspaper sells around the clock. Readers can study it at their leisure...enjoy it...relax with it...clip it...buy from it. And they do.

EDUCATOR'S WIFE GETS THE NEEDLE

Dr. Mary Jo Tonelli, assistant Marin County health officer, thrusts point of needle under skin of Mrs. Bert C. Corona, wife of San Rafael superintendent of schools and chairman of parent volunteers for tuberculin testing program, in demonstration of how pupils in city's first and ninth grades will be given tuberculin tests next month. The skin tests are more valuable than chest x-rays in detecting presence of tuberculosis bacilli in youngsters. The tests will be given in a pilot program sponsored by schools, health department, and Marin Tuberculousis and Health Assn. (Independent-Journal photo)

Approval For Alcan Apartments

Approval was given by the Marin County Planning Commission yesterday to a master plan for the Alcan-Marin apartment project on 23.12 acres of land and tidelots west of Highway 101 and south of Enchanted Knolls, near the north end of the Richardson Bay Bridge.

The commission for a time considered another continuance for views of Mill Valley's City Council. But this was the second hearing and it was felt that since this will not come before county supervisors before Jan. 29, the council would have time to formulate any objections and voice them to the

A condition of the approval was that a county service area be formed to include the whole Alcan-Marin project and provide for maintenance of any non-county streets and parking areas. The county public works department is to have power of approval over street construction and drainage.
